BOOK CLASS VOLUME

015.42 g En3a 1904

The History of the War in South Africa.

Price **£5. 5s.** net the Set of Six Volumes. Separate Volumes, **£1. 1s.** net.

THE THIRD VOLUME WILL BE READY ABOUT MAY, 1905.

The first volume, published in November, 1900, is not merely a summary from other works, compiled in order to serve as an introduction to the account of the military operations, but is in itself an important historical work, based largely upon original research into sources not accessible to the ordinary reader.

The second volume, which appeared on May 23, 1902, commences with a review of the two armies which were to confront one another, and a description of the state of affairs on the eve of the war; it then describes the military operations from the Boer invasion of Natal to the disastrous December, 1900.

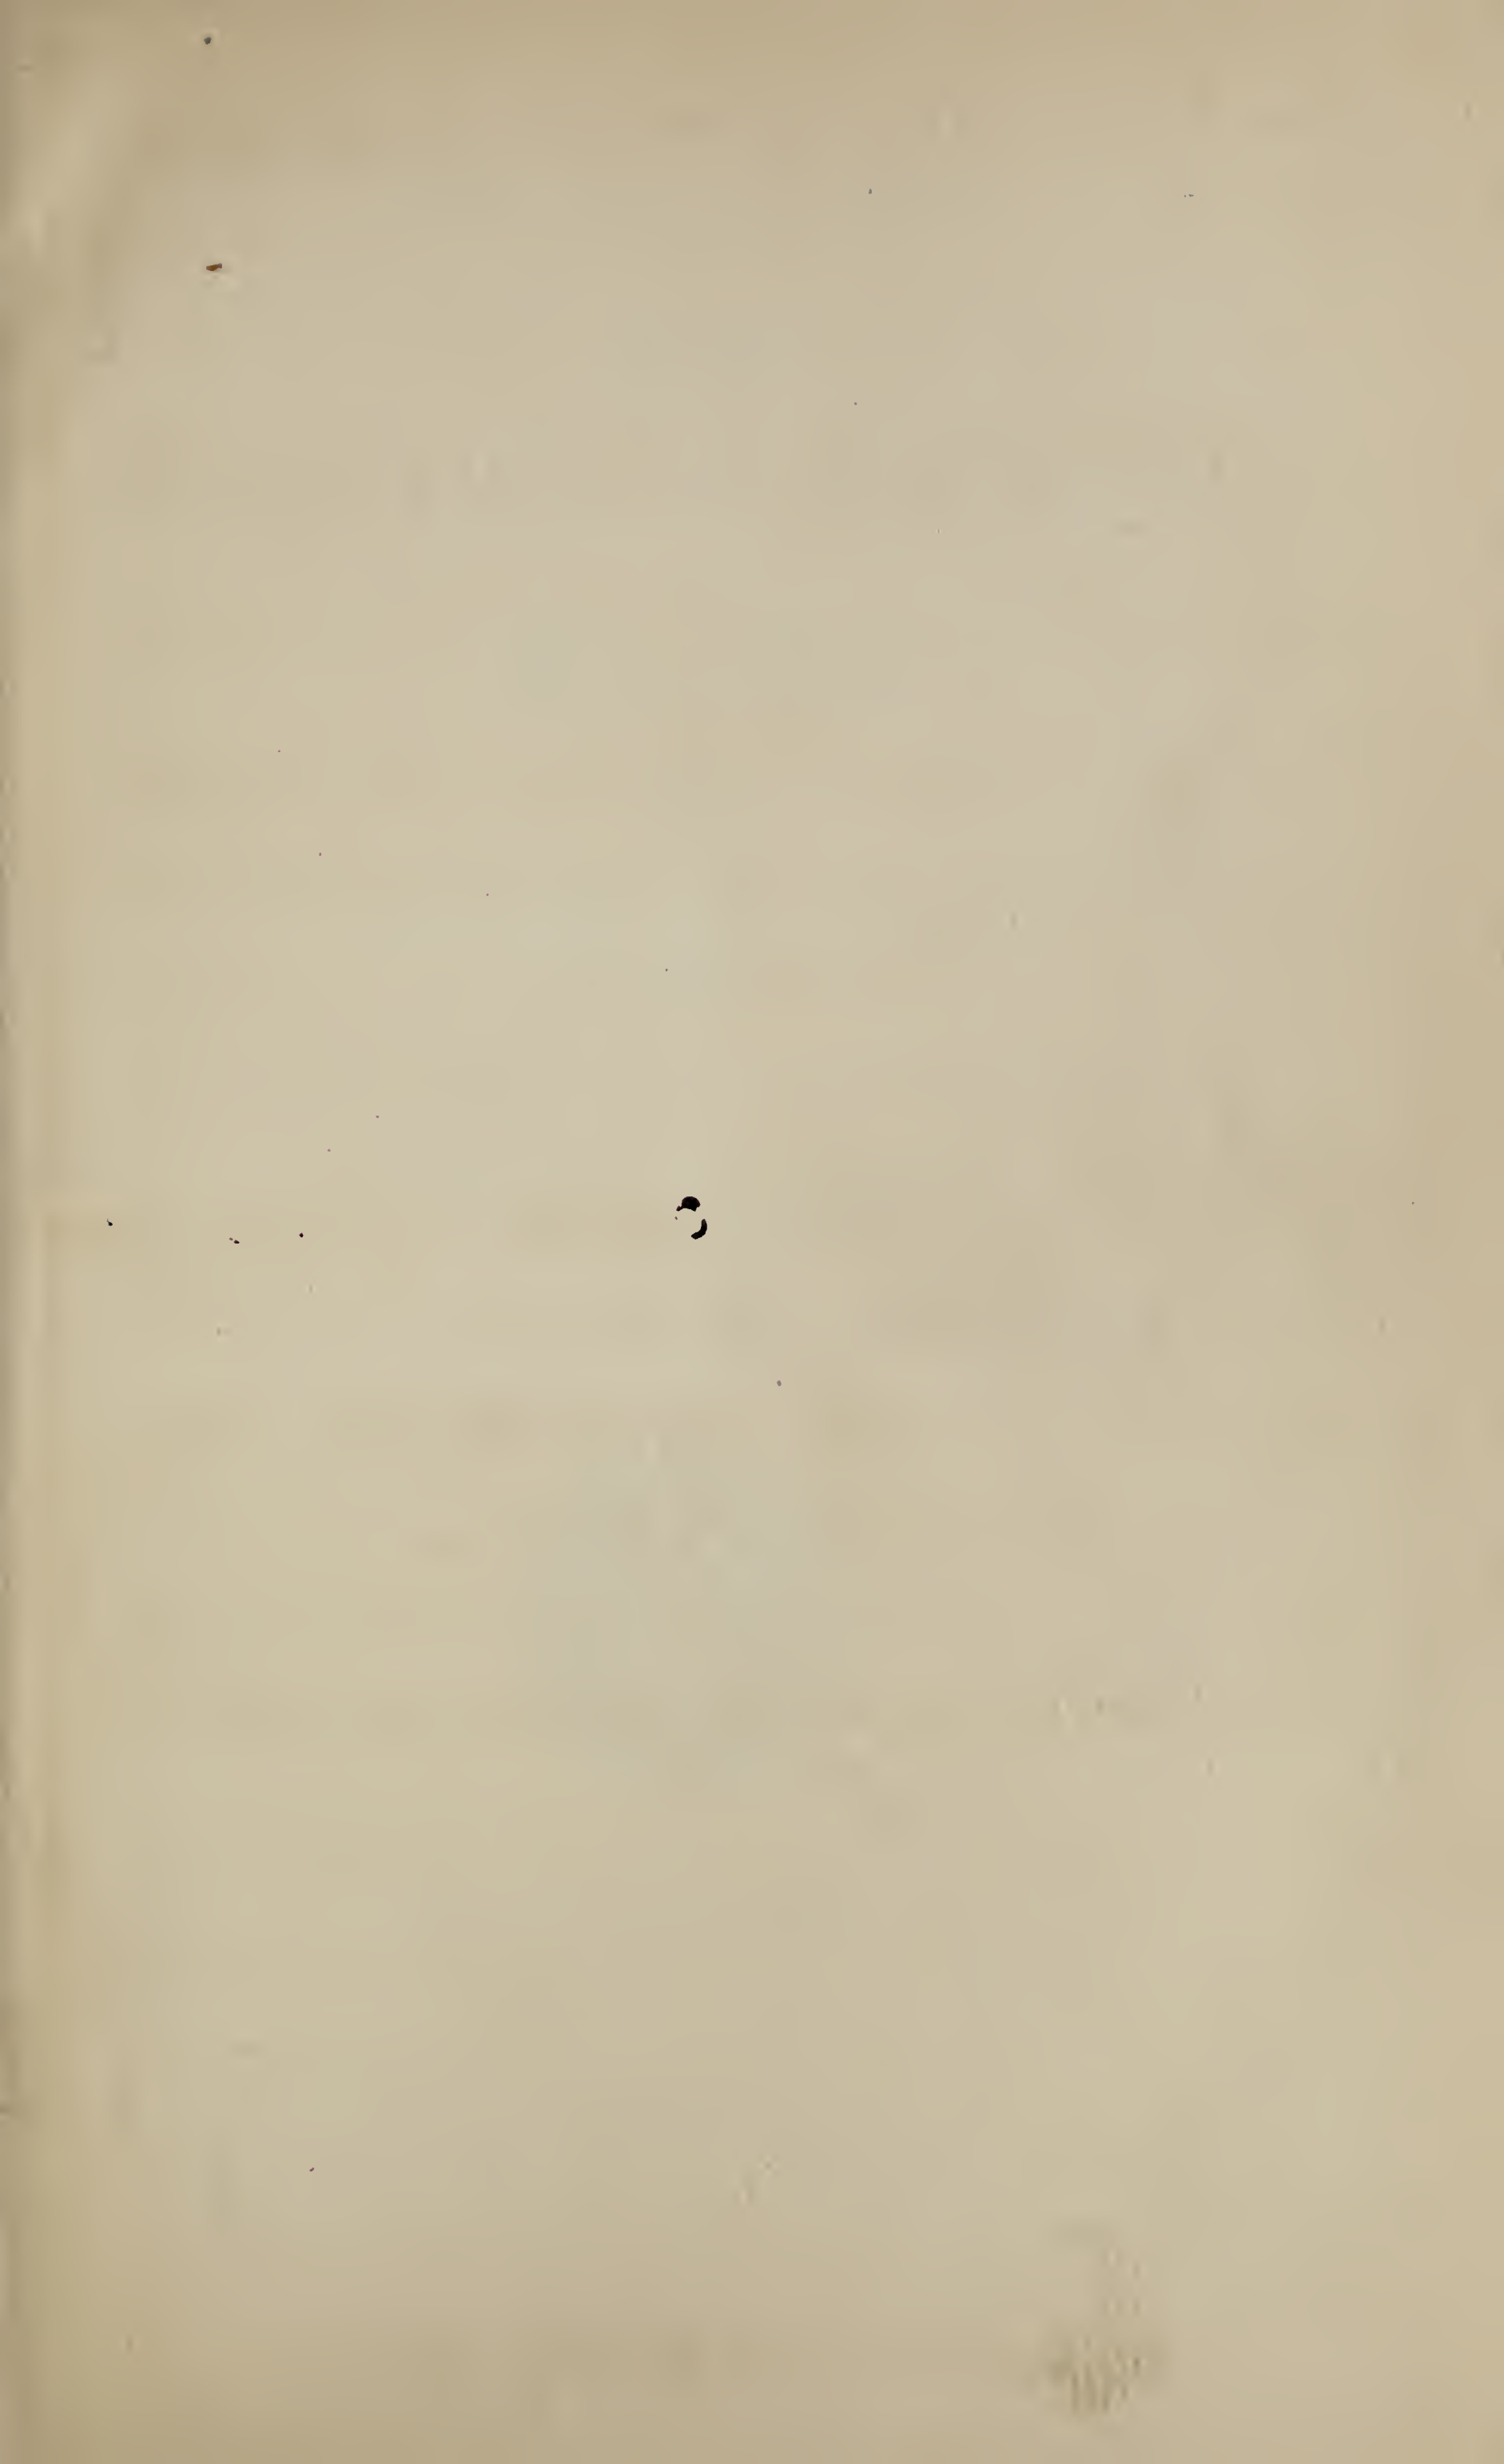

The third volume will include the sieges of Kimberley and Ladysmith, and the military operations leading to their relief, and to the capture of Bloemfontein, including Spion Kop, Pieters, Paardeberg, &c.

The fourth will carry the war to the occupation of Pretoria and Koomati Poort and the return of Lord Roberts.

The fifth will describe the guerilla warfare and the operations under Lord Kitchener to their successful close.

The sixth will deal in a series of special chapters on the work of the various technical departments and on the chief lessons of the war. The whole six volumes will be completed by an elaborate index.

PREFATORY NOTE

THIS sixty-eighth yearly issue of the English Catalogue of Books comprises the titles of works published during 1904, also of some received too late for inclusion in the sixty-seventh issue.

Titles and index are in one alphabet. The main entry of each work begins with the author's surname (if given on the title page) in **heavy type**. As an index to these 'Author' records, the title, commencing with its most important word or with its first word, is repeated in the same alphabet, with that word in *italics*, which in the main entry is in **thick type**.

The 'Transactions' of Learned Societies are recorded in an Appendix, as also the 'Series' and 'Libraries' issued by some publishers.

The names and addresses of the publishers of Great Britain and Ireland will be found at the end of the volume, followed by those of the principal publishers in the United States and in Canada. The telegraph and cable addresses and telephone numbers have been added when known.

Hearty thanks are due to many publishers, secretaries, authors, and bibliographers who have assisted in making this book more correct and comprehensive than it otherwise would have been.

The Editor will be glad to have particulars of author, price, publisher, and month of publication of any work which may have been omitted. Information as to each book should be on a *separate* slip of paper, the size of a large card. It should be addressed to

The Editor of **The English Catalogue,**

Publishers' Circular Office,

London, E.C.

DIRECTORY OF PUBLISHERS

All the Publishers have been invited by post to send us their Telegraphic Address and Telephone Number. Those sent will be found below between square brackets [], and separated from each other by a semicolon (;).

This list of Publishers, with their Addresses, has been principally compiled with a view to supplying information regarding the books in the 1904 English Catalogue. This will explain the inclusion of many firms in the list who can scarcely, in the strict acceptation of the term, be called Publishers, since the publication of books forms only an occasional portion of their business.
